"Snow Lake Essay" by McKenna Arble

Every morning when I wake up and look out the window I get to see the beautiful sunrise reflecting off the Snow Lake horizon, and I think about all the fun things I'm going to do out there that day, if it's summer. I've been privileged enough to experience this year round the past 14 years of my life. The view is great, but being out on the water is even better. I couldn't imagine my summers without the lake, it's such a big part of me. Snow Lake is such a great environment for friends and families, the people are always so friendly. Whenever I'm out there, I love watching all the tubers, boarders, and skiers go around the lake, that's my favorite part. I learned how to wakeboard on Snow Lake, so that will always be a great memory for me. Improving Snow Lake for future generations would be difficult because it's already so great. However, one improvement I would speak louder about is the harm waste can do to a lake. Snow Lake is beautiful and keeping the water clean is very important. Future lakers need to understand this concept. If they want to enjoy Snow Lake as much as I do, they need to take care of it.

In conclusion, I am blessed to be able to be apart of the Snow Lake community. When I go to college this fall, I'm definitely going to miss everything about it. But, at least I can look forward to coming back every summer!
